

# GLO-AWAY™ Dye Cleaner

## GLO-AWAY™ Dye Cleaner

GLO-AWAY™ dye cleaner removes all traces of dye from repaired leak sites so repairs can be verified. It is water-based, nontoxic, non-flammable, noncarcinogenic, biodegradable and has no offensive odor. It contains no harmful solvents or CFCs and is safe for use on plastic, rubber and metals. It can be shipped without a hazardous material surcharge. GLO-AWAY™ comes in 8 oz (237 ml) spray bottles and economical 16 oz (473 ml) refill bottles.

### What to Order

Product Number	Description
TP-9000-0008	1 – 8 oz (237 ml) spray bottle
TP-9000-0016	1 – 16 oz (473 ml) refill bottle
TP-9000-1208	12 – 8 oz (237 ml) spray bottles
TP-9000-1216	12 – 16 oz (473 ml) refill bottles

### Green Fact!

Going green has never been easier! Finding system leaks quickly not only saves you time and money, but also protects the environment from harmful contaminants.

Tracerline® fluorescent dyes are safe, economical and highly effective in detecting even the smallest leaks in any system. They come in a wide variety of dye formulations, including custom blends, to match each specific application. This means that they can work with any host fluid or refrigerant, without damaging its properties or system components.

Best of all, unlike other methods, fluorescent leak detection allows you to pinpoint the exact location of leaks—even multiple leaks—the first time and every time, with just one simple application!
