BATTERY CHARGERS

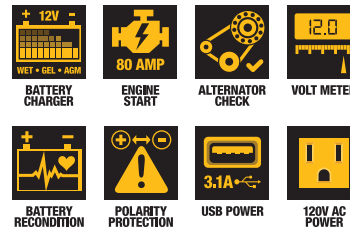

Battery chargers use AC (household) power to recharge automotive-type batteries. Black & Decker's innovative 3-stage process provides for an efficient and stable charge by automatically regulating both voltage and amperage through each stage. This "Smart Charge" method, extends the serviceable life of the battery by preventing overcharging or overheating.

BM3B-CA Battery Maintainer/ Trickle Charger

- 6V and 12V battery maintainer
- Keeps 6V and 12V battery systems at optimal capacity
- Fully automatic high frequency charging
- Reverse polarity protection
- 3 ways to connect: Battery clips, 12V DC accessory plug and battery ring terminals
- Built in mounting brackets

DXAEC801B-CA

BC15BD-CA 40 Engine Start, 15/10/2 Amp Bench Charger

- Fast, high frequency technology
- Most efficient: 15A-2A maintainer
- Start most vehicles in 8 minutes with engine start
- Patented alternator check
- Cord/cable wrap/clamp storage
- One touch automatic charging
- Reverse polarity protection
- LCD screen with easy to read icons

DXAEC801B-CA 80 Engine Start, 30 Amp Professional Bench Charger

- 30 Amp high frequency battery charger/maintainer
- Charge and maintain most 12 volt battery types
- 80 Amp engine start helps to start most vehicles in 60 seconds
- Tests vehicle's alternator to indicate if operating correctly
- Convenient auxiliary AC power outlet
- Provides up to 3.1 amps USB charging current for phones, tablets and electronic devices

BC25BD-CA 75A Engine Start, 25/10/2 Amp Bench Charger

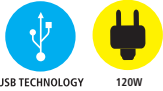

- Fast, 75 amp engine start
- Most efficient: 25A – 2A maintainer
- Cord/cable wrap/clamp storage
- One touch automatic charging
- Digital battery diagnostics

BC15BD-CA

POWER INVERTERS

Power inverters convert your vehicle's DC power to AC (household) power. Some models come with an adapter that plugs into the DC accessory outlet (cigarette lighter) of the car or truck. Using this adapter you can pull up to 140 watts which is ideal for small electronics. Other models include clips that allow you to connect directly to the battery. This attachment method is ideal for camping or as a power supply on the job site.

PI120P-CA 120W Electronic Power Inverter

- Charges and/or powers laptops, smart phones, tablets and more
- Power/fault LED indicator
- Low battery protection warns against vehicle battery drain
- Pivoting plug folds for easy access and storage

USB TECHNOLOGY

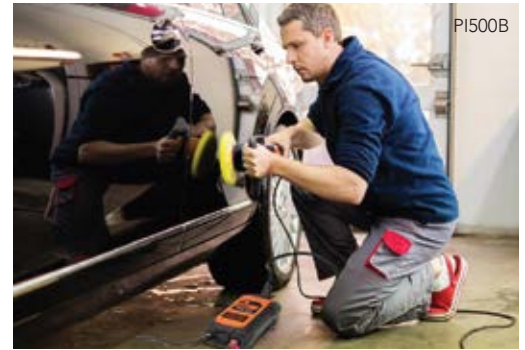

PIUSB2B-CA Mobile Personal Electronics Charger

- 2.0 amp charges and/or powers tablets, cell phones, MP3 players and more
- Dual USB ports charge two devices simultaneously
- Compact design for portability

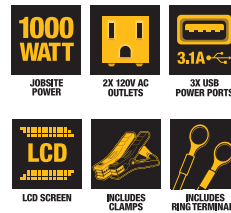

PI500B-CA 500W Power Inverter

- 500 watts of continuous household power on-the-go (or up to 140 watts through your car's 12V DC outlet)
- Dual 120V AC outlets and 3.1 Amp USB ports can charge/power multiple devices at the same time
- Connect with the included 12V DC plug or pop the hood and use the battery terminal clamps
- Durable, injection-molded polymer housing built to withstand rugged use
- Power button and automatic low-voltage cutoff preserve your vehicle's battery

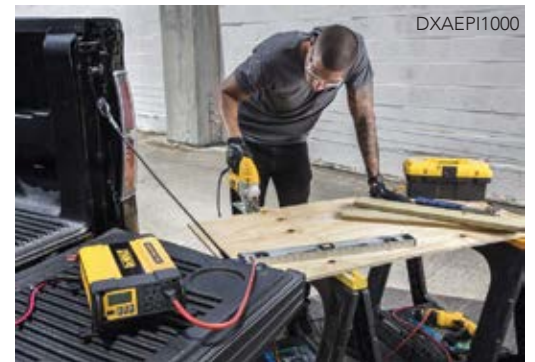

PI500B

DXAEP1000-CA 1000W Power Inverter

- 1000 watts of continuous AC Power that's perfect for a tailgate or jobsite; enough to power drills, work lights and more
- Dual 120V AC outlets and triple USB ports to power multiple devices at the same time
- Heavy duty aluminum housing with impact-resistant polymer trim and integrated grommets for easy mounting and installation
- Easy-to-read backlit LCD screen provides vital information at a glance
- Built in ground fault, short circuit and low battery protection
- Backlit Power button w/Power and Fault indicator

DXAEP1000

JUMP STARTERS & POWER STATIONS

A Jump- Starter is a portable and rechargeable unit that connects directly to your vehicle's 12V battery with clamps. It is ideal for jump starting in emergencies, without needing another vehicle or battery. It's compact enough to store within the vehicle.

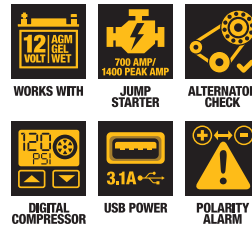

USB TECHNOLOGY

J312B-CA

300 Instant/600 Peak Amp Jump Starter

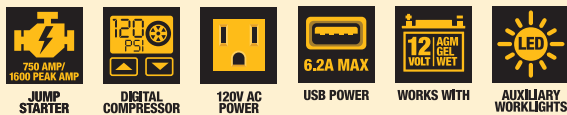

- 300 Instant Starting Amps/ 600 PEAK Battery Amps
- 12 Volt DC accessory outlet and 2 amp USB charging port
- Visual and audible reverse polarity alarms warn against improper connections to battery terminal
- Battery status and charging indicators
- Built- in 120V AC charger, recharges unit with standard household extension cord
- Powder coated metal clamps
- Light and compact for easy transport and storage

DXAEJ14-CA

1400 Peak/700 AMP Jumper/120 PSI Compressor

- 1400 Peak/700 instant amp jump-starter starts most vehicles in seconds
- 120 PSI digital air compressor (w/auto shut off) and Sure Fit™ nozzle to inflate vehicle tires and sports equipment
- Dual USB charging ports (up to 3.1A combined) charge up to 2 personal devices on the go
- Alternator check to test your vehicle's alternator
- Reverse polarity alarm warns user if connected improperly

DXAEPS14-CA

Professional 1600 peak/750 AMP Jumper/120 PSI Compressor/500 Watt Power Station

- 1600 Peak/750 instant amp jump-starter starts most vehicles in seconds
- 120 PSI digital air compressor (w/auto shut off) and Sure Fit™ nozzle to inflate vehicle tires and sports equipment
- 500 watt job-site power — dual 120V AC outlets
- 4 USB charging ports — provides up to 6.2 amps combined USB charging power
- Reverse polarity protection with audible alarm
- LED area light
- Heavy duty cables (4AWG) and metal coated clamps
- ETL/UL certified for safety

SPOTLIGHTS & AIR COMPRESSORS

Black & Decker® spotlights are ideal for camping, roadside emergencies, power failures and more.

Stanley® Air Compressor and digital tire inflator will get you back on the road in minutes when your tire pressure is low.

500
LUMEN

WPAK5B-CA Black & Decker Waterproof Spotlight

- 500 Lumens
- High powered LED
- 6 AA batteries Included
- Waterproof housing
- New trigger design with guard
- Up to 10 hours of runtime

Innovative storage
case packaging.

750
LUMEN

SLV2B-CA Black & Decker LED Li-Ion Rechargeable Spotlight

- 750 lumens
- Li-Ion rechargeable via micro USB Port
- Ultra-bright center LED
- 2 ambient LEDs for extended runtime
- Up to 7 hours of runtime
- 2 amp AC USB charger
- USB charging cable
- Dual position handle/stand
- ETL certified

WPAK5B

CDC120S-CA AirPro 120 PSI 12V Corded Air Compressor with Digital Gauge

- Features Sure Fit nozzle with Autostop functionality for easy inflation
- Built in backlit digital display for reading PSI at a glance
- Comes with sports nozzle for inflating balls and sports equipment
- Extended cord helps you reach all four vehicle tires
